Indones Biomed J. 2023; 15(4): 303-9

---

The publisher would like to point out that the heading of Table 2, Table 3 and Figure 1 were incorrectly printed. The following headings are correct.

Table 2. Thyroid profile of control (n=100) and case (n=288) groups.

Table 3. Antioxidative and hormonal profile of control (n=100) and case (n=288) groups.

Figure 1. CTSS levels of control (n=100) and case (n=288) groups. A significant difference between groups is indicated by \* $p < 0.01$ .
